Every Luxury for Horse & Rider

25YRS EXPERIENCE | NEW-BUILDS | USED | REPAIRS | FINANCE AVAILABLE

I.C.E Horseboxes is a family run business that specialises in the build and supply of luxury horseboxes. All of our horseboxes are built with over 25 years experience, we have supplied both nationally and internationally for many years and our customers include some of the top riders in the world.

As horse owners ourselves, we understand the specific needs of our customers, and this unique insight means we are able to offer you a fantastic level of service. All of our models are handcrafted to the highest specifications, so whether you are going out on your own to local shows or competing internationally, we understand what you need and have designs to cater for every occasion. We offer you plenty of help and support throughout the buying process to ensure that you make the perfect purchase to suit your specific needs.

Top quality horseboxes for sale

Our new-build horseboxes are built by our expert, vastly experienced team to the highest standards. We ensure that we only use the very best materials available, which is why our horseboxes are the safest on the market.

We also specialise in low mileage vehicles so we're able to ensure that the vehicles we sell are in great condition. When you buy a vehicle from us you can be sure that it will look as good in five-years-time as it does the day you take it home.

We take safety very seriously and it is the absolute priority when we design and build our horseboxes, with all of our models meeting Defra standards. All of our rear facing horseboxes are fitted with a breast bar that can be collapsed from the outside, and extra wide rear exit doors, as standard.

With a number of horse transport models ranging from 3.5t to 7.5t, our competitively priced horseboxes are favourites for hire companies, professionals and private owners alike.

We are also experienced in upgrading 3.5t horseboxes to 3.9t and 4.5t in order to meet the extra payload requirements of our customers.
